Come join us as we help you put your classroom on a path to creating a personalized learning environment for your students. This workshop will focus on iPad innovation at the K-6 level. We will explore a core suite of apps and strategies specific to math and language arts to empower students to create, reflect, and collaborate. The workshop will be hands-on with time for teacher planning and creation, so bring your iPad, your computer, and any curriculum materials for an upcoming unit.

Resources

All resources are in located in Schoology.

- Go to http://www.schoology.com and sign up as an instructor
- Click on Groups -> Join
