**Regarding the working relationship LARM has with Midwest Employers Casualty Company**

- LARM Loss Control managers Dave and Fred often attend the Midwest Employers Casualty webinars when they are live. (This gives us an understanding of webinar content prior to posting to LARM website for Member usage)

- Quarterly, Dave will coordinate with Ellen Ladd to select 3 – 4 new webinars that then get posted to the LARM webpage for Members to view. An email blast then goes out to all Members letting them know of the new training.

- Every LARM Member has a unique username and password assigned to them by LARM, which provides them access to the Midwest Employers Casualty webinars on the LARM webpage.

- The workers compensation specific training provided by Midwest Employers Casualty in this webinar format can be viewed 24/7/365 by Members. This is very valuable to them, specifically because many of the Nebraska LARM Member communities are very small, rural and without unlimited funds, which prevents many from travelling to training sessions in other areas.

- Through LARM Membership, Midwest Employers Casualty also offers Members a large collection of safety-related resources including written programs, ready-made presentation templates with industry-based safety content.
- LARM provides all Members with a membership to the Nebraska Safety Council where they have access to numerous safety related trainings (web and in-person trainings) and materials. Members receive discounted pricing through the membership LARM provides them with the safety council.

- LARM Members are provided a monthly Risk Management newsletter with relevant safety topics. (I have been told by many Members this is popular and they really like getting them)

- LARM Members also receive a monthly LARM Safety Minute which is a one-page flyer with a relevant safety topic. (I have been told this is also popular as many people want the information they are provided to be short and to the point)

---

LARM’s Loss Control is Managed by Two Law Enforcement-Certified Professionals

- LARM also partners with LocalGovU to provide additional webinars to Members. (Service we pay for) This is referred to as the LARM On-Line University on our website. These webinars cover safety topics in all areas of municipal government.

- Much like the Midwest webinars, they are changed quarterly on the LARM website and can be used by Members 24/7/365. There are usually around 40 training topics Members can choose from each quarter.

- LARM also partners with Jack Ryan- Legal and Liability Risk Management Agency (LLRMI) to provide Members with up-to-date model police policies specific to Nebraska. They will and have also worked with LARM and on the behalf of Member police agencies when they have had legal 1983 suits filed against them. (Services we pay for)

- LARM also partners with LLRMI and the Nebraska Law Enforcement Training Center to provide Law Enforcement specific webinars to ANY certified Nebraska Law Enforcement Officer. (10 hours of this training can be used for the 20 annual continuing education hours needed by Nebraska officers
2017 4th quarter online training available to LARM Members:
