Getting Started with 1:1 Technology

Christina Arnberg & Kim Paska
6th Grade AAP Teachers
Poplar Tree Elementary
Fairfax County Public Schools
Have Students Involved at the Entry Level

- **WHAT IS** digital citizenship?
- Developing computer norms and expectations
- Having student buy-in

Your job as a student is to learn.

Technology is only here to help you with that.

Technology is a tool, not a toy.
Classroom Habits and Expectations

- Set clear and defined expectations

- Do not overwhelm students with different technology options

- Screens always face the teacher
Daily Routine

- Keep a consistent routine
- Clear language throughout the school and grade levels
- Have norms for each class period
Behavior Management

- Logical Consequences
- How to handle the equipment
- Consistency is key

you are FREE to choose, but you are NOT free from the consequence of your choice
Tap Into Your Students’ Expertise

- Your students probably know more about technology than you do!
- Allow them to take on responsibilities
- Leadership opportunities in the classroom
- Tech Squad
Allow Technology to Transform Your Teaching

- Flipped Classroom
- Hyperdocs
- Project Based Learning
- Shift Your Mindset

“Teach like YouTube and Google exist. Showing students what they can do with Google provides them with the valuable life skill of knowing how to find information. Then, what the students do with the information becomes the focus of deeper learning.”

Teaching Math with Google Apps
Our Favorite Beginner Tools

- Padlet
- Flipgrid
- Google Sites
- Google Classroom
- Google Sites
Question and Answer
Workshop

Use our remaining time to...

- Create clear norms and expectations for your classroom

- Look into one new technology tool that you will implement in your classroom
