Creating a Movie With Make-a-Movie®

1) Log in with your My BrainPOP account and visit any topic page. Click the MAKE-A-MOVIE button.

2) MAKE-A-MOVIE invites students and teachers to create their own BrainPOP-style movie.

Start with a letter just like a real BrainPOP movie! Click ANSWER A LETTER to choose a BrainPOP letter or WRITE NEW to write your own.
3) To **EDIT** your letter, click Scene 1 in the timeline at the top of the screen. You can add a background color, edit the text, and add sound by clicking the tabs on the left navigation bar.

SHOW or HIDE your letter by clicking the open or shut eye.

4) **BUILD** a movie by dragging and dropping topic-related images and animated loops into a scene as well as backgrounds.

You can also annotate and draw. Select what you want to do by clicking the tabs on the left navigation bar.

5) Use the **SEARCH BAR** to search the BrainPOP library for more images, animations, and backgrounds.

6) Select an image to **EDIT** its position, scale, or to delete.

Click the pencil icon to layer an image in front or behind another image.
7) **ANNOTATE** your scene with text, labels, and shapes to help explain and highlight ideas.

8) **DRAW** pictures in your scene using different pencils and colors. Add shapes, too.

   Click **UNDO** if you make a mistake. Click **REDO** if you delete by mistake. **ERASE ALL** to start again.

9) Click **ADD SOUND** to narrate your movie. Record your voice or choose a text-to-speech computerized voice.
10) Add, delete, copy, and shuffle scenes using the TIMELINE at the top of the screen. You can add up to 20 scenes!

Select a TRANSITION EFFECT between each scene.

11) Click PREVIEW to watch your movie.
12) Click **MY MOVIES** to load and edit all the movies you’ve created.

13) Teachers can **ASSIGN** movie projects for students to complete.

14) Students click **SUBMIT TO TEACHER** to send movies to the teacher for review.
15) Teachers view submitted movies and leave feedback for students.
