1. Why do you think there was no abstract with the results of your author search?

2. Explain how you used Boolean Terms for the above search? If you did not, use Boolean Terms, how could you change your search process to use the And, Or, Not terms?

3. Provide examples of the controlled vocabulary (standardized terms for use in indexing and retrieving information from a database) for the search that you performed to acquire biographical material for Robin B. Wright? (Warning: don’t over-think this!)

4. Which database did you use? Name one other of the North Library databases that may have provided you with biographical information on Wright?
