Hexagon tool

The Hexagon Tool can be used as a planning tool to evaluate evidence based programs and practices during the exploratory stage of implementation.

- Needs of students; how well the program or practice might meet identified needs.
- Fit with current initiatives, priorities, structures and supports, and parent/community values.
- Resource Availability for training, staffing, technology supports, curricula, data systems and administration.
- Evidence indicating the outcomes that might be expected if the program or practices are implemented well.
- Readiness for Replication of the program, including expert assistance available, number of replications accomplished, exemplars available for observation, and how well the program is operationalized.
- Capacity to Implement as intended and to sustain and improve implementation over time.

Blase, Kiser, and Van Dyke, 2013
