Sample Intervention Menu

What is this?
A menu of interventions to use with the students you support. This menu is adapted from the Intervention Menu that teachers created at McDevitt Middle School in Waltham (MA).

How should I use it?
- When you're developing an action plan during Early Warning System (EWS) meetings, reference this menu for ideas on how to support your assigned students.
- Even better — use this template to empower teachers to develop their own intervention menu! It can be even more powerful and effective teachers bring their own ideas and learnings to the menu.

☑ Parent contact (email, phone, etc.)
