Resources for 3 minute Explication

1. Tips for Creating an Impactful 3 Minute Explication

Preparing your 3 Minute Explication

• Imagine that you are explaining your research to a friend or family member
• Avoid jargon
• Be sure to convey your excitement for your topic
• Know what you want you audience to take away from your presentation
• Tell a story with a beginning, a middle and an end
  o Catch their attention with an opener
  o Highlight your different points
  o In summary, restate the importance of your work or the main take away for your audience

Recording your 3 Minute Explication
• Present with clarity and confidence
• Speak clearly and use variety in your voice (fast/slow, loud/soft, up/down)
• Do not rush but find your rhythm
• Remember, pause at key points to allow your audience to think about what you are saying
