Hello!

My presentation consisted mostly of storytelling, supported by pictures I have taken at different Agile companies.

For privacy reasons I do not distribute those pictures.

If you have any specific questions about them, just contact me directly.

DOING RETROSPECTIVES WELL

1. Set the stage
   Create a safe environment and get everyone involved.

2. Gather data
   Look back and gather the facts and feelings.

3. Generate insights
   What can we learn? Keep? Change?

4. Decide what to do
   Take the top improvements into the next Sprint.

5. Close the retrospective
   How can we improve our retrospectives?
