Overcoming Barriers: Solving Your Personal Dilemma

What is your personal barrier, limitation, or dilemma related to getting students outside for science and math.

- Getting students outside during the school day?
- Building or maintaining a school garden?
- Building your garden team?
- Administrative support?

Write it down.
Group Problem Solving Exploration

1. Choose one person’s barrier/dilemma. That person will become the speaker.
2. Speaker in 3 minutes share your issue giving as much context as possible. Listeners are only listening.
3. Listeners may have 2 minutes to ask clarifying questions.
4. Listeners brainstorm aloud and come up with ideas for 3 minutes. Speaker only listens.
5. Speaker may make any further clarifications.
6. Listeners brainstorm aloud again. Speaker only listening.
7. Speaker responds and shares any possible actions that they may be able to take to overcome the barrier.
