Apache Fineract

(incubating)
Who am I?
Software can make the world a better place.

-Myrle Krantz
Why fintech?
What is microfinance?
“All human beings are born entrepreneurs. Some get a chance to unleash that capacity.”

-Muhammad Yunus
Where do banks get their infrastructure?
How can I help?
http://fineract.incubator.apache.org/
What does it look like on the inside?
CQRS
Command and Query
Responsibility Segregation
Multitenancy
Where are we going from here?
Questions?

Apache Fineract is an effort undergoing incubation at The Apache Software Foundation (ASF), sponsored by the Apache Incubator PMC. Incubation is required of all newly accepted projects until a further review indicates that the infrastructure, communications, and decision making process have stabilized in a manner consistent with other successful ASF projects. While incubation status is not necessarily a reflection of the completeness or stability of the code, it does indicate that the project has yet to be fully endorsed by the ASF.
