MLIS and MARA programs at SJSU are 100% online. SJSU SAASC fulfills the need, especially vital in an online program, of students to connect with classmates and professional archivists.

Our digital publication Archeota, repository tours, and speaker events provide networking opportunities and allow us to gain knowledge about the field outside of the classroom.

Archeota is the official publication of SJSU SAASC. This open-source digital publication:

- promotes and highlights archives-related activities, events and resources;
- discusses current trends in the field;
- introduces students to professional responsibilities; and
- serves as a forum for students to create original content.
