Subject to the exceptions provided in Article 3 (commencing with Section 310), all children in California public schools shall be taught English by being taught in English. In particular, this shall require that all children be placed in English language classrooms. Children who are English learners shall be educated through sheltered English immersion during a temporary transition period not normally intended to exceed one year. Local schools shall be permitted to place in the same classroom English learners of different ages but whose degree of English proficiency is similar. Local schools shall be encouraged to mix together in the same classroom English learners from different native-language groups but with the same degree of English fluency. Once English learners have acquired a good working knowledge of English, they shall be transferred to English language mainstream classrooms. As much as possible, current supplemental funding for English learners shall be maintained, subject to possible modification under Article 8 (commencing with Section 335) below.

(a) (1) As part of the parent and community engagement process required for the development of a local control and accountability plan pursuant to Article 4.5 (commencing with Section 52060) of Chapter 6.1 of Part 28 of Division 4 of Title 2, school districts and county offices of education shall solicit input on, and shall provide to pupils, effective and appropriate instructional methods, including, but not limited to, establishing language acquisition programs, as defined in Section 306. This requirement is intended to ensure that all pupils, including English learners and native speakers of English, have access to the core academic content standards, including the English language development standards, as applicable, and become proficient in English pursuant to the state priorities identified in paragraph (2) of subdivision (d) of Section 52060 and of Section 52066.
