KIDS CREATE:
Art Inspired by Children's Picture Books

Paloma Barraza & Nancy Milliken
OUTCOMES:

• Children will learn the elements and principles of art as applied to the picture book illustrations and apply them in their own art

• Children will learn about art forms and styles used within the picture book illustrations and use them in their own art

  • Children will learn about materials used in children's picture book art and use new materials in their own art

  • Children's enjoyment of picture books will increase as they develop an appreciation of the illustrator's art

- Pens, markers, crayons, colored pencils
WHAT DOES A KID’S CREATE PROGRAM LOOK LIKE?
Papa, please get the moon for me
by Eric Carle

Children are seen engaging in an art activity inspired by the book "Papa, please get the moon for me". They are painting and creating their own versions of the moon and stars, following the book's theme. The images show children of different ages, working individually and in small groups, with paints, brushes, and paper, immersed in the creative process.
little blue and little yellow
