BOSH User Research

Usha Ramachandran
Product Manager at Pivotal
Research Background

➢ How hard is it to deploy and manage BOSH?

➢ What are some best practices around managing BOSH?
Initial impressions
Common User Problems

➢ Ruby CLI
  ○ rbenv

➢ Installs, upgrades and updates
  ○ BOSH-init, CI pipelines

➢ Storing state
  ○ Internal tools, GitHub Enterprise
  ○ But what about secrets?

➢ Editing manifests
  ○ Manual editing (yikes!)
The Future...

➢ BOSH CLI in Go
➢ Secrets
➢ Automating BOSH deployments - more CI pipelines
Final Impressions
Thank you!
