Moving Faster is a Competitive Advantage…

**Developers** want to push quickly into production.

Devs go faster with:
- **Agile** methodologies
- **Continuous Integration**

**Operations** wants stability, manageability, And Security.

IT moves faster with:
- **Automation Tools**
- **Self-Service to Developers**
But Requires People, Process and Technology Change…

Pivotal-VMware Cloud-Native Stack

Agile Development

Application Framework

Runtime Platform

Infrastructure

Well integrated software solution
Photon Platform: Purpose-Built IaaS for Cloud-Native Apps

Optimized Feature-set
Just the features needed to provide a secure and SLA-capable infrastructure for next-gen apps.

API-first Model
Built on clean, devops-friendly APIs, enabling consumption and operations to automate.

Scale-out Control Plane
A scale-out control plane optimizes for the creation of 1000s of simultaneous new workloads with active-active availability of system APIs.
