Join the members of the Transcultural Nursing Issues Special Interest Group for a review of the evidence related to health literacy, including its assessment and implications in patients with a transcultural background.

**Content Area:** General Content

**Content Level:** Intermediate

**Coordinator/Speaker:**
Fang-yu Chou, RN, PhD
Associate Professor
San Francisco State University
San Francisco, CA
fchou@sfsu.edu

**Full Disclosure:**
Nothing to Disclose

**Objectives:**
At the end of this session, participants will be able to:
1. Describe the conceptual foundation and definition of health literacy.
2. Discuss the common assessment of health literacy, current evidence-based literature, and implications for patients with cancer.
3. Identify the common issues of patients with cancer who have low health literacy.
