Joanna Ferreri will present "An Active Voiding Trial Protocol for the Postoperative Urologic/Gynecologic Surgical Patient: A Simple ‘Just Do It’ to Impact Satisfaction, Cost, and Quality.” She’ll discuss the components and benefits of a novel study to decrease the length of stay associated with the prolonged passive voiding trial. To review the full abstract, please see page E70 online in the March 2014 issue of the Oncology Nursing Forum.

Monica Beck will present “Safe Management of Patients Undergoing Thyroid Ablation.” She’ll identify three essential principles to employ when caring for patients undergoing radiation, while ensuring that radiation exposure is as low as reasonably achievable for the healthcare team. To review the full abstract, please see page E79 online in the March 2014 issue of the Oncology Nursing Forum.

Chia-Chun Tang will present “End-of-Life Experiences of Patients With Terminal Pancreatic Cancer: An Integrative Literature Review.” She’ll highlight research that addresses end-of-life care for patients with pancreatic cancer, focusing on how nurses can meet this population’s special needs. To review the full abstract, please see page E80 online in the March 2014 issue of the Oncology Nursing Forum.

Mali Wold will present “The Pain Stops Here.” She’ll reflect upon cases of palliative sedation in a nurse practitioner-managed inpatient medical oncology unit. You’ll explore factors that impact the consideration of palliative sedation and how to alleviate concerns of inappropriate use. To review the full abstract, please see page E83 online in the March 2014 issue of the Oncology Nursing Forum.

**Content Area:** Clinical Practice

**Content Level:** Intermediate

**Objectives:**
At the end of this session, participants will be able to:
1. Discuss the impact of literature and case-based reviews on practice changes in the oncology care setting.
2. Identify the impact of nurse-led interventions related to symptom management.
