Palliative Care: The Essence of Nursing

Every oncology nurse needs to be skilled at providing generalist palliative care. Gain knowledge of how you can integrate palliative care into all oncology practice settings from large academic medical centers to small community practices. You’ll leave feeling confident in your ability to implement palliative care changes at your institution.

Target Audience: Registered Nurses

Level of Content: Intermediate

Speaker:
Polly Mazanec, PhD, ACNP-BC, AOCN®, FPCN
Nurse Practitioner
University Hospital of Cleveland
Cleveland, OH

Objectives:
At the end of this session, participants will be able to:
1. Define generalist versus specialist palliative care roles in oncology.
2. Discuss resources the oncology nurse might use to provide comprehensive palliative care for patients across all settings.
3. Characterize selected symptoms common in oncology and the treatment options and resources that can be employed to address them.
