Join us for a five-part podium session that explores evidence-based approaches to improving patient outcomes during oncologic emergencies.

• Brenda Shelton, RN, MS, CCRN, AOCN®, will present “Implementing Sepsis: First Six Hours Bundled Interventions in a Hematologic Malignancy Ambulatory Clinic.”

• Courtney Crannell, RN-BC, MSN, OCN®, will present “Use of Automated Sepsis Advisory Triggers in an Inpatient Oncology Unit.”

• Jenna Campbell, MSN, RN, OCN®, will present “Neutropenic Fast Pass.”

• Cheri Constantino-Shor, RN, MSN, CRNI, will present “PICC Removal With Confirmed Catheter-Related Thrombosis (CRT).”

• Anne Hodge, RN, BSN, CCRN, will present “Positive Outcomes in Mechanically-Ventilated Cancer Patients in the Critical Care Setting Through an Early Progressive Upright Mobility Program.”

Target Audience: Registered Nurses

Objectives:
At the end of this session, participants will be able to:
1. Describe three evidence-based approaches to improving patient outcomes during oncologic emergencies.
2. Discuss successes and barriers to developing and implementing assessment tools for sepsis.
