Go Fish

Goal: Have the most sets of cards at the end of the game.

Rules:

1) Each person is dealt 5 cards.
2) The first person asks anyone in the group if they have a card. They must have one of those cards in their hand already. Example: “Do you have any fours?”
   a. If the asked person has one of more of that card, they must give all of them to the asker.
   b. If the asked person doesn’t have any of the cards, they say “go fish” and the asker draws a card.
3) The asker keeps asking anyone in the group for another card until they are told to “go fish.”
4) If anyone ever runs out of cards, they draw 3 more.
5) Once the draw pile is empty, keep asking until sets can no longer be made.
6) Add up the number of sets of cards and score one point for each set. Deduct one point for each card remaining in a player’s hand.
