TIP: Teachers teach content and build literacy through themes. Students demonstrate deeper learning through projects.

THEMATIC: Teachers, students, and community partners work together to determine what character strengths students most need to be successful.

INTERDISCIPLINARY: Teachers, students, and community partners work together to determine which meaningful and relevant interdisciplinary topic(s) students will explore through the lens of each theme.

PROJECT-BASED: Students demonstrate deeper learning through authentic, high-quality projects they design, refine, and exhibit to a real audience who may ask questions.
