“This might sound like a strange one, but can you pass on my thanks to your families for supporting you as you travel relentlessly around the world, helping to make it better.”

Teacher, 2016
Where did we come from?
EC was started in Australia in 2011 by Dave Faulkner (a school teacher and education leader) and Aaron Tait (a humanitarian and social entrepreneur).

Where do we work?
We now work with schools and education departments in every state in Australia, and with partners across North and Central America, Europe, Africa, Asia and the Middle East.

Who is in the EC team?
Every EC facilitator is a former teacher or school leader who has led innovative and powerful changes for children. Our team have an average of two masters degrees each, from some of the world’s most prestigious universities.

What will never change about EC?
We passionately believe that the best ideas for education almost always come from teachers and we work tirelessly to unleash their innovations. We are a generous organisation, and donate significant time, resources and money to education projects around the world. As an organisation that was founded on a radical collaboration we will always try new things, disrupt the status quo and strive for a world where every kid, everywhere, enjoys the benefits of a great education.
