Look at the number on the back of your card and go to that table to create the image on the left.

Group Introductions (your name and where you were at this time yesterday)

Answer and Discuss
- What do you see?
- What does this suggest?
- What implications does this have for your practice?
ART, PROTOCOLS, AND STUDENT PERFORMANCE

CINDY ELKINS - celkins@eaglerockschool.org
JOSÁN PERALES - jperales@eaglerockschool.org

@hthgse, #DeeperLearningConference, #deeperlearning, #ShareYourLearning
Workshop Learning Targets

I can explore protocols to apply in my practice.

I can envision building authentic partnerships in building community.

Essential Question

What are people and organizations willing to do to live up to their values?
DEEPER LEARNING COMPETENCIES

- Content Mastery
- Collaboration
- Effective Communication
- Critical Thinking and Problem Solving
Lesson Learning Targets

I can identify an important environmental issue in the world.

I can evaluate the values of an organization.

I can create art that supports our partner’s values and mission.
Beach (Block) Party Protocol
Beach Party Debrief

(shape groups)

What is the problem being presented?
How is this problem being presented in a different way?
What new learning came from the article?
Going deeper - authentic and meaningful service and partnerships

How do organizations (partners) live their values?
Mission WILDCOAST is an international team that conserves coastal and marine ecosystems and wildlife.

Vision We envision a society in which ecologically sensitive and globally significant coastal and marine ecosystems and wildlife are conserved, restored and sustained for future generations.
What we do  We conserve some of the world's most significant coastal and marine ecosystems in the USA, Mexico, and Cuba.

Our work  We establish and manage protected areas, advance strong conservation policies, and engage communities in the protection and stewardship of healthy, thriving oceans, coastlines and wildlife.
Mission The Surfrider Foundation is dedicated to the protection and enjoyment of the world's ocean, waves and beaches through a powerful activist network.

Initiatives/Projects
Beach Cleanups, Rise Above Plastics, Ocean Friendly Restaurants, Hold Onto Your Butts
With recent scale backs in support to government agencies such as the Environmental Protection Agency, and the proposition of new offshore oil drilling along our coasts, Surfrider’s work in protecting and fighting for what we love, is more important than ever. Our ocean faces a growing number of threats each and every day and now, more than ever, we ask you to join the fight for clean water and healthy beaches.
What systems of inequity (need for change) exist in your community that your students/class can influence through authentic service and partnerships?

Think of at least two organizations you could potentially partner with – Why?

What is your first step in forming the partnership?
Art&Activism

Class of ER72 – 2017
What image, word, or phrase will you create to expose the environmental problem of plastics polluting our oceans and/or represent the values and solutions of our partner organizations?
THANK YOU!

We appreciate your feedback!
