What is podcasting?

Podcasting is the practice of using the Internet to make digital recordings of broadcasts for an audience to listen to.
“There’s millions and millions of people that listen and love Podcasts that didn’t in 2012”. –John Lee Dumas (Quotes on Fire)
Benefits of Podcasting

- Voice and choice in learning
- Reading fluency
- Writing revision skills
- Enunciation for speaking
- Vocabulary development for ELLs
- Creative ways to demonstrate mastery

Ideas

Students can...

- Math—Give tips on how to solve multi-step problems.
- Science—Listen to how science is used in the real world. Create a problem solution podcast.
- Reading—Have book club discussions or interview readers on book recommendations.
- Writing—Make a script, design a theme for their podcast, work on voice, word choice, and intonation.
- Social Studies—Discuss the causes and effects of a historical event or different viewpoints (perspectives).

Examples

- Westward Expansion
- Era Project
- Passion Project
Thanks!

International Podcast Day is next Monday September 30 where the world will celebrate the power of podcasts.
