Multiple Uses of Professional Grade 360 Degree Imagery in GIS & CAMA Solutions
Alex Hepp, Director, Assessment, CycloMedia Technology, Inc., Manahawkin, NJ
Jay Mickle, GIS Team Director, Office of the Jefferson County, Property Valuation Administrator, Louisville, KY
Jennifer Kuntz, GISP, CycloMedia Technology, Inc, Saint Louis, MO

ABSTRACT TEXT: This session will focus on the delivery and implementation of traditional single JPEG images and professional grade 360 degree panoramic imagery for Assessor’s. The different uses and benefits of each, along with examples of integrations into CAMA and GIS.

This session will also look at real world examples of different integrations which allow the imagery to be viewed into Public Facing Websites (OH, IA and PA) that are both GIS and CAMA centric. The multiple department use of the Imagery will also be examined as an excellent cost sharing opportunity.
