Abstract Descriptions

Young Professional Student Panel

Primary Presenter
Wendy Peloquin, GISP
RS&H
Jacksonville, FL

Second Presenter
Vanguard Cabinet

Abstract text: This session will introduce young professionals and students to the Geospatial Industry. Several career paths will be highlighted, including the skills required for entry- and mid-level positions. It will also give advice on creating effective resumes and portfolios, as well as proper etiquette and tips for a successful interview. Young professionals will also be introduced to URISA and the GISP certification. Resources for locating job listings will also be provided.
