Mentorship: The Low-Down and the Meet-Up

ABSTRACT TEXT: Oprah Winfrey has described a mentor as someone who allows you to see the hope inside yourself, and that insight is important at every stage of a career. Learn about the value of a mentorship (and a reverse mentorship), what to expect out of a mentorship, and how to develop a mentor-mentee relationship. Then speed-connect with fellow GIS professionals to help build your network and see if there's a mentorship in the making.

We would like to make an appeal to GIS-Pro 2017 attendees to join us for this session both to be a possible mentor as well as a mentee.

PANELISTS

- Christina Boggs-Chavira, Engineering Geologist, California Department of Water Resources in the Data Publication, Exchange and Management Section. Christina serves on DWR Enterprise GIS Committee and currently serves as NorCal URISA President.
- Melisa Caric Lee, President, Compass Rose GIS, and President-Elect, SoCal URISA.
- Kara Utter, URISA Vanguard Cabinet
