The Graduation Approach is a comprehensive, time-bound and sequenced set of interdependent interventions designed to graduate households from ultra-poverty into sustainable livelihoods while building long-term resilience to chronic household shocks.
Graduation addresses multiple drivers of exclusion and deprivation to ensure no one is left behind.

**Goal 1**
Graduation scaled within national social protection floors to end extreme poverty by 2030.

**Goal 2**
Productive Asset Transfer and Technical Training to promote sustainable livelihoods and access to food.

**Goal 3**
Life-Skills Training and Access to Health Services to encourage behavior change and build resilience.

**Goal 5**
Savings, Mentoring and Social-Inclusion Activities to promote gender equality and empowerment.

**Goal 8**
Cross-Sectoral Linkages to increase productivity of extreme poor, contributing to economic growth.

**Goal 10**
Multidimensional Targeting and Graduation Criteria to progressively realize basic rights for extreme poor.
GRADUATION INNOVATION: FRAGILE CONTEXT

South Sudan
Implementer: BRAC South Sudan
Dates: 2013 - 2015

- Increased security risks
- Hyperinflation
