Tackling Global Challenges

Educational Inequity:

● **263 million children and youth** are unable to attend school

● **617 million children and youth** are not achieving minimum proficiency in reading and mathematics

Lack of Access:

● **Less than half of the world** is online
In 2012, Learning Equality launched KA Lite — providing local, offline access to Khan Academy content for 4,500,000 learners in over 194 countries and territories.
Kolibri is an open-source ed-tech platform and toolkit designed for multiple contexts, focused on:

- fostering **innovative pedagogy** and effective **learning outcomes**
- increasing the availability of **relevant, aligned learning materials**
- overcoming **infrastructural barriers** preventing equitable access

---

**Introducing Kolibri**

**Open content library**

**Seamless distribution**

**Wide variety of hardware**

**No Internet required**
Supporting personalized learning

Kolibri allows for students to learn at their own pace, while providing teachers with pedagogical guidance to support students — all in an offline setting.

- Self-paced learning
- Manual content curation
- Tools to understand student progress
