Introduce Yourself!
New gTLD Subsequent Procedures PDP WG

WT1 Leaders: Christa Taylor, Sara Bockey
Community efforts, such as a PDP and various reviews, are underway to take into consideration the 2012 New gTLD round and seek ways to improve, refine, or develop new policy recommendations for new gTLDs, acknowledging that there is existing new gTLD policy from the GNSO’s 2007 Final Report on the Introduction of New gTLDs.

An open face-to-face working session took place on Thursday, 3 Nov to continue progress made on a number of different subjects, such as Applicant Support, the base registry agreement, objections, the evaluation criteria, and other topics.

GNSO WG’s are open to anyone who would like to participate. The WG has made an effort to try and select times are are more hospitable to those in APAC (e.g., share the burden).
To Summarize

There are 4 separate Work Tracks working on a number of different subjects. Their findings will be dependent upon input from the community and will be reviewed as a full WG.
