The .ae Domain Administration (.aeDA)
.ae Domain Administration (.aeDA)

• The .aeDA was established in 2007 by TRA as a department. It is the Regulatory Body and Registry Operator for the .ae country code namespace and dotEmarat the Arabic domain name.
• The .aeDA is responsible for the setting and enforcement of all policies with regard to the operation of the .ae ccTLD and dotEmarat as well as overseeing the operation of the Registry System.
• The .aeDA’s role is to:
  – Develop and execute policy
  – Grow, develop and market the national namespace
  – Accredit and manage Registrars
  – Educate the public, delivering and promoting the national domain name
  – Facilitate the Dispute Resolution Policy
  – Represent at international forums
About .aeDA

• First in the region to adopt the registry-registrar model.
• Protection of rights through well defined policies
• 23 Accredited Registrars, local and international
• Easy registrations, no papers need for .ae
• 210,000 registered domains
• Top position in the region
Registration Progress over 6 years
Infrastructure

- Redundant Infrastructure, DR Site
- Follow the International Standard (IETF)
- Certified ISO27001 Information Security and ISO22301 Business Continuity
- The .aeDA maintains high availability for Name Service by having secondary Servers all over the word
- DNSSEC Enabled, planned 2018
DNS performance

- RIPE NCC DNS Monitoring Service (DNSMON)
- Objective and up-to-date overview of the quality of the service
- Uses our RIPE Atlas active measurement network
- Provide an up-to-date service overview of all DNS root and many Top-Level Domain (TLD) name servers
- Important feature is the ability to view historical data
