1. Name your site.
“Focus on identifying your target audience, communicating an authentic message that they want and need and project yourself as an ‘expert’ within your niche.

– Kim Garst
The HOME Page

Contact Information
▶ Who are you?
▶ How do we contact you?
▶ What information can be found in this warehouse?

Name of the Site
▶ Does the name of the site explain what the clientele will see on the site?
▶ Do you have a logo or can you make one (see Canva or Piktochart for help)?

Header
▶ Should be catchy.
▶ Brand yourself

Add Logo
▶ Use your brand.

Image
▶ Think about your brand.
2. Plan your site.
“Give me six hours to chop down a tree and I will spend the first four sharpening the axe.”

— Abraham Lincoln
Layout

- Click on PAGES to get started.
- Add a PAGE with the + button.
- Try to think of all the sections you will need.
- You can add more later.
- You can change the order too.
Theme

- Click on THEMES.
- Also, you can look up a particular color to search under the photos to get a textured look on your headings.
3. Start a page.
Plan your pages.

01
Google Drawing is great for HYPERDOCS to link to your page.

02
Use Google Docs, Sheets, Drawings to link.

03
You can link in PDF’s also.

BUILDING BLOCKS
4. The possibilities are endless.
