# Achievement

- As of 2017.2, the Law Course at UFRN will have two disciplines around Internet Law, which would have been impossible without the IGF.
- Every semester, up to 100 hundred students will have the opportunity to learn about Internet Law.
- The faculty is closely working with our researchers in order to offer an updated, ever-improving perspective, emphasizing the multistakeholder model as essential for the effective understanding of the content.

# LATEST GEDI GENERAL ASSEMBLY

(VIVIANE COULDN'T COME TO THE IGF,  
SHE IS IN ROMENIA)

The IGF 2015 gave us the necessary tools to  
create our own Internet Governance  
community.

It was not an one-off opportunity to be  
forgotten. It has changed our lives. It made us  
capable of grouping together.
