MODERATORS
- Onsite moderator: Mark Spelman, Head of Thought Leadership, World Economic Forum
- Online moderator: Cristian Duda, Project Lead, Digital Identity, World Economic Forum
- Rapporteur: Monika Glowacki, Research and Analysis Specialist, World Economic Forum

FOCUS
Growing digital interactions are bringing personal identity data online at an unprecedented rate, creating both opportunities and vulnerabilities. Many governments and businesses are establishing digital identity programs and data models to improve delivery of public and private services to citizens and consumers. While these represent tremendous opportunities for individuals to gain value from the digital economy, inadequate policies and practices can lead to exclusion, discrimination and abuse of personal freedoms.

What are individual-centric, scalable policies and practices on identity and data that are creating sustainable value for businesses, consumers and citizens?

POLICY QUESTIONS
1. How can we make inclusion, empowerment and agency of individuals a core design element of identity and data models?
2. What are high-value use cases that data and digital identity can enable for citizens and consumers, and how can we accelerate their implementation?
3. How must roles for governments, businesses and civil society evolve in an increasingly data-driven economy?

EXPECTED OUTCOMES
- Broaden shared understanding of individual-centric principles on digital identity and data
- Identify “lighthouse” activities and scalable, replicable best practices from around the world
- Identify priority policy considerations that need multi-stakeholder dialogue and action

HOW CAN YOU PARTICIPATE ONLINE?
1. Please Create a user account on intgovforum.org
2. Follow the confirmation link in the email to activate your account
3. Install Zoom on your phone, iPad or laptop in advance. An introduction on how to install and use Zoom is provided here: https://support.zoom.us/hc/en-us/articles/201362193-Joining-a-Meeting
   Join the meeting with the following link for Room I, 10 minutes before the session starts: https://intgovforum.zoom.us/j/454358122

- For transcripts (only plenary part of the session) please access: https://youtu.be/QFpF2uNfuOI
**AGENDA (DRAFT)**

<table>
<thead>
<tr>
<th>WELCOME (10 min)</th>
<th>World Economic Forum moderator welcomes everybody and introduces the context and objectives of the workshop.</th>
</tr>
</thead>
</table>
| PANEL (30 min) | The moderator facilitates a panel conversation focused on:  
- How do you approach data and digital identity design in your ongoing activities? Share 1-2 good practices and policies that enhance individual-centricity of identity and data models.  
- What roles can businesses, governments and innovators play in identity and data governance? How can the public and civil society be better involved? |
| WORKSHOP (30 min) | Rotating group discussion on five governance topics  
The moderator invites onsite participants to split into five groups each focused a specific sub-theme and led by one of the panelists. Online participants can participate in any topic. **Participants will spend 15 min on the topic and then rotate to another group.**  
The objective per topic is to identify:  
- Examples of initiatives demonstrating good governance  
- Scalable, replicable best practices  

**Breakout topic # 1: Ensuring user agency and meaningful consent**  
- Facilitator: Linda Bonyo, Founder and Chief Executive Officer, LawyersHub *(confirmed)*  

**Breakout topic # 2: Advancing vendor-neutral identity and data**  
- Facilitator: Sebastian Hufnagel, Government Affairs Manager EMEA, Dell *(confirmed)*  

**Breakout topic # 3: Enabling use cases with high consumer value**  
- Facilitator: Dirk Woywod, Chief Technology Officer, Verimi *(confirmed)*  

**Breakout topic # 4: Enabling collaboration across entities and sectors**  
- Facilitator: Michael Bültmann, Managing Director, HERE Technologies *(confirmed)*  

**Breakout topic # 5: Mobilizing citizen, consumer and civil society engagement**  
- Facilitator: Solana Larsen, Editor of Internet Health Report, Mozilla *(confirmed)*  
<p>| WRAP-UP / CLOSING COMMENTS (15 min) | The moderator invites the breakout group leaders to share one main take-away and high-potential idea from their discussion. The moderator summarizes priorities for collaboration and opportunities for broader stakeholders to engage. The moderator thanks all participants and closes the session. |</p>
