USING SOCRATIVE TO ENGAGE YOUR STUDENTS
Welcome

Lu Jiang, Presenter
Graduate Student, University of San Francisco

I am an international student at the University of San Francisco and currently pursuing a master’s degree in Digital Technologies for Teaching and Learning. As an education student I have trained to perform highly in multimedia learning design and digital pedagogy.
Workshop Description

Are you looking for an easy way to increase engagement and interaction with your students? Were you discouraged by the learning curve of student response systems “clickers”?

Learn how Socrative leverages the power of student responses and use the live, real time data to inform instruction.
Agenda

1. Socrative Overview
2. Demonstration
3. Workshop Activity
4. Questions/Evaluation
The Socrative App

- Allow teachers to poll students and obtain immediate feedback throughout a class lecture.
- It is an incredible resource for formative assessment purpose during a lecture.
Teacher logs into the teacher portal & creates activities.

Students enter the teacher's room number

Teacher begins the activity

Process is Synchronous
LET’S GET STARTED!

AN INTRO QUIZ - TEACHER PACED
DEMONSTRATION
Create a Socrative Account

Modify your room number
Dashboard

Create new quiz, import quizzes, and view report.

Start an existing quiz (Teacher/student Paced)

Your student use this code to log in

Modify your room number

Number of students in the room

Quickly check understanding before our students leave for the day.

Throw out quick question on the fly

A small group activity
Create Quizzes

Code for sharing quizzes

Name of the quiz. Ex. Chemistry Quiz
Let’s do “Fun Quiz” as an example

Add image to question

Enter the question text

Enter answer choice

Mark answer choice(s) as correct

Optional: Add an explanation of the correct answer. This will display with immediate feedback.
WORKSHOP ACTIVITY
1. Create a quiz with two question types with or without the images.

2. Role play with a colleague and have them take your assessment. Please try to use student-paced.

3. View the feedback and email the report to you.
Additional Resources

Socrative Garden: A blog dedicated to improving education through the sharing of strategies, tips and ideas for using Socrative.
http://garden.socrative.com/

Socrative Help Center: Find answers on common questions, and get step by step instruction.
