ONBOARD STUDENTS
Here are some different ways to help students create Tallo accounts.

TALLO-LED ROLLOUT
There are three ways a Tallo Rep can help onboard students:
Option 1: By grade level
Option 2: By discipline
Option 3: With whole school

TEACHER-LED ROLLOUT
Request materials to onboard students at a self-appointed time. Rollouts can be structured three ways:
Option 1: Over one class period or full session
Option 2: Incrementally over a semester or school year
Option 3: Incorporated into school or course curriculum

WHAT IS A ROLLOUT?
During a rollout students sign up for Tallo and complete the majority of their profile in one session. It’s helpful to have someone directing the rollout to both educate about Tallo as well as guide students through profile creation and completion.
Recommended rollout time is around 45-60 minutes (15 minutes for training and 30+ minutes for profile set-up).

AVAILABLE MATERIALS
Customize students’ onboarding experience with these materials:
• Conceptual Videos
• Lesson Plans
• Technical Manual
• Tallo Teach Reps

HOW TO BECOME A MENTOR

Students are able to share view-only copies of their profiles with mentors such as parents, coaches, or teachers who can assist them in putting their best face forward.

1 STUDENT SHARES PROFILE
Student clicks Share Profile above profile picture and selects Share With Mentor.
Student enters mentor email address and selects Send Invitation.

2 ACCEPT EMAIL INVITATION
Mentor opens email invitation and selects Accept Invite Now.
Type your name and create a password.
Select Create Your Account.
You will receive view-only access of the student’s Profile and Dashboard.

3 MANAGE MENTOR INVITATIONS
To accept additional student mentor invitations, select Invitations from the drop-down menu at the top-right of the page.
Students can add multiple mentors and mentors can accept multiple invitations every time you log in.

NOTE
A mentor cannot have more than one account on Tallo. If another account has already been created using the same email address, the connection will not be made.

If this is the case, we will need to be notified to remove the account that you wish to delete and free up your email address for the mentor account.

WHAT IS TALLO?
Tallo (formerly STEM Premier) is an online platform that connects students with opportunities. The Tallo app assists students and young people in designing a career pathway, educators in recruiting top talent to their schools, and employers in developing a stable, continuous talent pipeline. Students (ages 13+) and professionals showcase their skills and abilities in their online profile, connect directly with companies and colleges looking for the next generation of talent, and match with over $20 billion in scholarships.

IS TALLO SAFE?
Yes. Tallo is committed to protecting users’ privacy and provides a safe, secure user experience. Learn more in our Privacy Policy and our Terms of Use, which are both available on Tallo.com. Everything on Tallo is both FERPA and COPPA compliant. All users must be over the age of 13. Users enter all information on their own - no one else may enter information into a user’s profile other than the owner of that account.

WHAT IS A STUDENT PROFILE?
A student profile is a digitally interactive, self-directed page that allows users to stand out to colleges and companies. The premise is to level the playing field between students and allow individuals to highlight their strengths.

HOW DOES A STUDENT PROFILE WORK?
Students create free digital profiles to showcase their talents, discover resources and scholarships, receive guidance and coaching, and connect with colleges and companies. Talent Seekers (verified colleges and companies) can view users’ profiles, micro target with specific search filters, track top-level analytics, and recruit candidates directly via internal messaging.

WHAT IS A STUDENT DASHBOARD?
The student dashboard is the first thing a student sees when they log in their Tallo account. The dashboard provides an analytical breakdown of their test scores and level of profile completion, visible only to the user. Additional features allow the user to explore various career assessment tools, posted opportunities such as scholarships and events, and companies’ profiles. The dashboard also houses the scholarship matching engine Red Kite and displays the current dollar amount the user qualifies for, as well as a “match score” that indicates how well the student matches up with current scholarship opportunities.
