The Collaborative Common Assessment Process

- Foundation for Collaborative Common Assessments
- Establish Team Norms for Collaboration
- Identify Priority Standards
- Examine School data and establish SMART goals
- Create a ‘road map’ of CAs and Targets
- Monitor progress on SMART Goal

- Instruction & on-going assessment

- Tally and review common assessment results

- Create a plan for appropriate interventions

- Revise curriculum, instruction, & assessments as needed

- Identify the targets of the assessment(s)

- Repeat intervention loop as needed

- Assess again monitoring for results

- Instruction & on-going assessment

- Monitor for learning of individual and collective results

- Design formative and summative assessments & determine which will be common

- Cassandra Erkens (2016)
