About

A program of the Library of Michigan

Part of the Michigan Dept. of Education

Includes $3+ million worth of electronic resources*

Access to:
- Valuable research info
- Digital images,
- Videos
- Full-text articles and books
- Test & career prep
- Tutorials

*Funded by the Federal Library Services and Technology Act (LSTA) via the Institute of Museum and Library Services (IMLS), with additional funding provided by the State of Michigan. Letter from Randy Riley and Overview of LSTA funds in Michigan
Accessing MeL Resources

● Easily accessible on any device 24/7 (http://mel.org/)
● All Michigan residents have **FREE** access to the resources
● No login information is needed
  ○ Subscription access is geo-authenticated; Michigan residents get immediate access without logins
● Portals available for K-12
  ○ MeL Kids (preK - 5th grade)
  ○ MeL Teens (6th - 12th grade)
  ○ MeL Teachers (Training Toolkit, Parent Resources, and more!)
MeLCat: homepage

DATABASES: databases.mel.org
A to Z list of databases

PRACTICE TESTS: Quick access to LearningExpress Library (SAT, AP Exam, and career test prep database)

MeL MINUTE: A weekly update showcasing a “nugget” of info about MeL resources and/or MeL website content.

PORTALS: Access the other original MeL Portals

Search MeLCat: This option will search ONLY MeLCat material, NOT subscription databases. To search the databases, go to the Databases tab and use the search there.

SOCIAL MEDIA: Access MeL Facebook, Twitter, and YouTube.

KIDS: kids.mel.org
Grades PreK - 5

TEENS: teens.mel.org
Grades 6 - 12

Overview of Databases

Quick Access to Any MeL Database: databases.mel.org

Note: Current databases are available until Sept. 30, 2018.
Britannica School

Grades K - 12

- 145,000+ Encyclopedia Articles
- 400,000+ Magazine/Periodical Articles
- 46,000+ Biographies
- 101,000+ Downloadable photos, videos, illustrations, maps, and flags
- Primary Source documents and other informational text
- 16,000+ Lesson plans by Grade, Subject, and Standards
- STEM and STEAM resources
- Interactive World Atlas
- Merriam-Webster double-click dictionary
- My Britannica, with shareable Resource Packs
- Three levels of text
- Animal Kingdom & Interactive Geography Explorer
- 1,200+ New and revised articles each month
- 1,000+ New photos, videos, illustrations, maps and flags each month
Britannica Elementary is geared toward reading levels of grades 3-4.

It is the only level of Britannica School that has the Animal Kingdom.
• Britannica Middle is geared toward reading levels of grades 5-7.
● Britannica High is geared toward reading levels of grades 8 and up.

● The carousel on the High homepage has a “Science in Pictures” that changes daily.
You can email a search to yourself. Note - when you want to access the search at a later time, you must enter any level of Britannica first, then click on the link in your email.

You searched for “inventions”.

You can specify Lexile range.

Note the multiple ways you can narrow your search to look at different types of content and reading level.
In the Middle and High levels, find research support material and “How Tos” in the Student section.

Then click “Educator Resources to access a Research Toolkit.

For Science, some helpful items from the Research Toolkit include:

- How to Read and Understand Graphs
- How to Organize a Report
- How to Build and Argument
- How to Create Visual Representations of Data
Features contextual information and opinions on hundreds of today's hottest social issues.

Continuously updated pro/con viewpoint essays, topic overviews, primary source documents, biographies, court-case overviews, periodical articles, tables/charts/graphs, and more.

Contains more than 700 Greenhaven Press, Gale, Macmillan Reference USA™, Charles Scribner's Sons® and U·X·L titles.
Browse categories or search for topics from the homepage.

Topics can be searched in Categories such as Energy and Environmentalism; Health and Medicine; and Law and Politics.
Featured Viewpoints provide multiple viewpoints on hot topics
Fraudulent Anti-Vaccine Propaganda Continues to Threaten Public Health

Lord Ara Darzi is a surgeon and director of the Institute of Global Health Innovation at Imperial College London. In the following viewpoint, Darzi contends that Dr. Andrew Wakefield's since-discredited 1998 paper linking the measles, mumps, and rubella (MMR) vaccine with autism triggered the return of measles in the United Kingdom in 2012. He asserts that vaccine abstention risks undoing the effects of herd immunity, which refers to the thorough immunization of large communities to prevent outbreaks of disease. Darzi details the medical community's condemnation of Wakefield but warns that Wakefield continues to influence the public's perception of vaccine safety. Furthermore, Darzi maintains, a new documentary directed by Wakefield further serves to promote his discredited theories. Darzi urges the public to support the fight against Wakefield's contested research and those who deny the life-saving science of vaccines.

As you read, consider the following questions:

1. What examples does Darzi provide to support his argument that Andrew Wakefield's theories pose a threat to public health?
2. How can individuals protect themselves from pseudoscience? Use information in the article to support your answer.
3. Do you agree with the author's assertion that vaccination is medicine's "single greatest success story" of the last century? Why or why not?

The scandal over the supposed link between the measles, mumps and rubella (MMR) vaccine and autism is one of the worst health scares in living memory. Hundreds of thousands of parents rejected one of the most fundamental safeguards for children on the basis of a false alarm. Today, it's what we would call "fake news".

Measles, a highly unpleasant disease which can lead to life-threatening infections of the lungs and brain, had been
A general search for “water pollution” yields tens of thousands of articles.

This user can get help narrowing their topic by using the “Topic Finder”.
Results are narrowed down to just 36 articles now.
Results are narrowed down to just 36 articles now.
Marijuana has been cultivated for thousands of years. Certain varieties have been used as hemp to make rope, others for their medicinal properties. Cannabis was first used medicinally in China around 2000 B.C.E.

Intended for informational purposes only.
Provides instant access to carefully compiled and trusted medical reference materials.
Includes nearly 400 health/medical journals, hundreds of pamphlets, over 700 health-related videos from partner Healthology, Inc., articles from 2,200 general interest publications and links to reputable health websites in addition to a broad collection of Gale reference titles.

Includes video.

- Grades PreK - 5
- Has full-featured pictures, sounds and videos
- Teacher Section
Webquests are print-and-do activities designed to help build students' foundational knowledge by taking them on grade-range-correlated "expeditions" in World Book Online. By following these step-by-step routes through the database, students can learn by reading text, seeing images, and hearing sound (including text read aloud to them). Along the way, they will be learning and practicing basic database research skills that will be helpful to them in using other online databases.

In the classroom or as part of library programming, a teacher or librarian only has to print out and distribute a webquest to students for them to begin their self-directed lesson in research and exploration! New webquests will be added regularly; check back soon for updates!

Abraham Lincoln
Abraham Lincoln was one of the truly great men of all time. As the 16th president of the United States, he led the country through the Civil War and helped end slavery in the nation. Use this...
