1. What attribute is your area of focus?

2. Why did you select this area of focus? What data (observational or quantitative) did you use in making your decision?

3. What is your SMART goal for this teacher attribute? (Your goal should be **Specific**, **Measurable**, **Attainable**, **Results-Oriented**, and **Time-Bound**)

4. How will you regularly assess progress towards this goal? How will you respond to the results of these assessments?

5. What additional skills might you need in order to accomplish this goal? What professional learning opportunities or resources would help you acquire these skills?
