WIRELESS HOTSPOT INTERNET INSTRUCTIONS

New Jersey School Boards Association Workshop

Open Public Network – 1400 Devices

To access the Wireless Service provided by Smart City Networks and the Atlantic City Convention Center, please follow these instructions:

1. With a WiFi enabled device find the designated wireless network name “Attendee/Exhibitor”.
2. Choose connect to this wireless network.
3. Once connected to this network, open up an Internet browser.
4. You should be automatically redirected to the assigned Internet page, regardless of what your homepage is set to.**
5. You are now connected to the Internet.

If you have any problems, please contact James at (609)-515-2383 or Ryan at (609)-204-7382.

**If you are not automatically redirected, check to see if you have http://about.blank or a corporate Intranet site set as your homepage. If you do, navigate your browser to any public site, such as http://www.smartcity.com, which should cause you to be redirected to the Internet page.

Smart City corporate office customer support line: (888)-446-6911

NOTE: Smart City Networks cannot guarantee the functionality of VPN client software with the Wireless Internet service.
