Cooking in the Classroom

Implementing Student Nutrition Programs in northern remote First Nations communities
Northern Ontario - and I don’t mean Sudbury...
Northern Ontario - and I don’t mean Sudbury...
Kwayaciiwin Education Resource Centre submitted application for MCYS funding in 2015. Application was approved at 80% of funds requested. Funding took into account the “remoteness” of community with larger budgets for Northern and Remote communities.

Funding began in January 2016, included one-time start up budget and on-going budgets for food, transportation, staff, cultural activities and training.

SNP’s are different in every community!

My role is to support programs with menu planning, ordering support, training, transportation planning, resource sharing and school visits.
