Here is a link to the Google Slide presentation that will be used in this class. It includes course learning targets, and links to a poll and other resources that will be used in class. It would be helpful to bring headphones to class, as you will have access to some videos.

To access Hapara:

1. Using the Google Chrome browser, click on the Evergreen Bookmarks folder and select ClassLink. Log into ClassLink with your first.last name and your district password. Then locate and click on the Hapara icon on the ClassLink Apps page. Alternately, you can also type www.teacherdashboard.com into the address bar of your Chrome browser to get to Hapara.

2. If prompted, click on the Sign in with Google button.
