Participating Companies (as of Feb 2019)

BMW
Bosch
HERE Technologies
Intel
Juniper

Pivotal
Red Hat
SAP
Siemens

We welcome you to join ....
Open Source Tooling Group

github.com/Open-Source-Compliance/Sharing-creates-value
Motivation

OSS compliance is a very important topic for every company that uses OSS. During the last years more and more OSS tools and projects have been started to support OSS compliance.

Why not having an E2E tool chain for OSS compliance completely consisting of OSS tools only?
Goals of the Group

- Understand which OSS-based compliance tools do exist and what they do
- Draw a landscape of tools to identify overlap and gaps and integration needs
- Encourage contributions to OSS-based compliance tooling and collaboration between them
- Deploy real case scenario comprised of OSS-based compliance tooling interoperating together
Open Source Tooling Landscape
