Capstone Presentation: Building a Culture of Data Use for Leaders: Pro-“tool”-cols for the Trade

How can we use data protocols to influence leaders’ data mindsets and behaviors?

DATE/TIME
Thursday, May 18
12:45 – 2:00 pm

FACILITATORS
Sean Berkstresser, Manager of District Performance, Tulsa Public Schools
Kelly Branaman, Associate Superintendent, Archdiocese of Washington
Alyssa Reinhart, Data Fellow, Syracuse City School District

WHAT IS THIS SESSION ALL ABOUT?
In this session, we will be led by three current Cohort 7 fellows who are all implementing data reports, structures and processes in order to build the capacity of agency leaders to consume data. While the session will begin with a quick introduction and summary of the desired mindsets and behaviors we are seeking to impact, the majority of the session will involve session attendees practicing using data protocols.

WHAT WILL I LEARN IN THIS SESSION?
The session will help us learn to use data protocols to assist in 1) the analysis and interpretation of data and 2) developing a procedure for making decisions and taking action through the use of goal-setting.

WHO SHOULD ATTEND THIS SESSION?
This session is open to attendees with any interest in building a culture of data use. This session is appropriate for all participants, even those with no background knowledge on the topic.

HOW SHOULD I PREPARE FOR THIS SESSION?
Before the session, please download Tableau Public at https://public.tableau.com. It is recommended that you bring your laptop with you to independently visualize data during this series of roundtable discussions.
