Thank you for attending today’s session! I hope you found it to be both helpful and informative.

San Antonio ISD developed a new G/T program, Leadership & Visual Arts (LAVA). The program is currently funded by a Jacob K. Javits grant to research how to identify and service students who are gifted in these two areas. My focus over the past year has been to develop an identification program and begin a service model to work with gifted leaders. The resources that I found helpful while developing the initial stages of the program are listed below.

Mrs. Carlyn Fryberger  
G/T Specialist in Leadership, San Antonio ISD
