Why are we here?

Perhaps this group produces something particularly profound.

Post that puppy on Twitter #TIA18
Question 1

What is your background when it comes using technology for teaching and learning? Are you a novice, an expert, or somewhere in between?
Question 2

TIA exists because learners are changing. What does a changing learner look like in your classroom, or on your campus?
Question 3

How has technology helped you meet the needs of your changing students over the past year?
Question 4

Describe a technology-related challenge that you faced this year. Were you able to overcome it?
Question 5

What technology for learning gets your students fired up?
Question 6

What is the *best thing* you’ve seen at TIA so far? Is there anything you can’t wait to try once the year starts?
Question 7

When you look back on the ‘18-‘19 school year, what do you want to have accomplished as you serve changing learners?
