“I am absorbed in the magic of movement and light. Movement never lies. It is the magic of what I call the outer space of the imagination. There is a great deal of outer space, distant from our daily lives, where I feel our imagination wanders sometimes. It will find a planet or it will not find a planet, and that is what a dancer does.”

“I want to make people feel intensely alive. I’d rather have them against me than indifferent.”
