Individuation
Individuation
“Ares [is the] “Assigner, who extends the peculiar nature to each species, and gives individual form…”

Ruland, *Lexicon* p 32 [17th century lexicon of alchemy]

“It [Ares] can therefore be taken as the principle of individuation in the strict sense.”

“Astrologically Mars characterises the *instinctual* and *affective* nature of man. The *subjugation and transformation* of this nature seems to be the theme of the alchemical opus.”

What is your Mars up to?
‘One does not become enlightened by imagining figures of light, but by making the darkness conscious. The latter procedure, however, is disagreeable and therefore not popular.’
