* From Verifying Birth Time to Solving a No Birth Time Dilemma: Rectification

By Carol A. Tebbs, MA, CAP
Email: caroltebbs@aol.com
Chart Angles are determined by birth time, where 4-minutes of clock time = 1-degree. Less so, geographical location and birth date.

- The MC and ASC axis are the most time sensitive points of the natal chart.
- House cusps are rarely useful in chart verification or rectification work.

Dobyns
Why Birth Time Matters

- Often AA-rated birth certificate times are off by several minutes, plus or minus.

- In many movement systems 4-minutes of clock time = a year, which could mean inaccurate forecasting.

- The key to adjusting birth time is finding the most “time sensitive” chart factors:
  - the Angles: 1-degree every 4-minutes of clock time
  - the Moon: 1-degree every 2-hours of clock time

- Planet to planet contacts will not change enough during the day to be interpretively useful.
Where Should I Start?

Test
- Determine if time adjustment is needed.
- When the client gives the birth data, question its source and confidence in its accuracy.

All
- Confirm all birth times, even certificate times. Solar Arc technique gives quick confirmation of the birth time to see when planets align with events.

Charts
- Make a list of major life events with specific dates, ideally 8 to 10 that span the lifetime.
- Provides a basis for further work, if needed.
What Are Major life Events?

Painful major life events are the most useful in a birth time search, but important joyful events do help:

1. Death of a child or parent
2. Separation from a loved one (divorce, break-up)
3. Surgery, accident injury or major illness
4. Loss of a job, job change or move
5. Abuse of any sort, victim or perpetrator
6. Bankruptcy or financial loss
7. Marriage or relocation
8. Birth of child
9. Honor, award or financial benefit

Specific event dates are more useful than general ones.

These planets arc to Angles for Prince William:

1984
Age 2 + d Mc
Born future king

1990
Age 8 + d Mc
Parents part

1999
Age 17 + d Mc
Mom died

2002
Age 20 ½ + d Ds
Entered college

2005
Age 23 + d Mc
Dad re-married

2008
Age 26 + d As
In love/wife to be

2014
Age 32 + d Ds
Married

Test 9:03 PM - AA Data

The corresponding life events actually occurred 2 years earlier, suggesting an earlier birth by 8-minutes.
These planets arc to Angles for Prince William:

1982
Age 0  ♀ ♂ MC
♀ ♂ ASC
Born future king

1988
Age 6  ♀ ♂ MC
Parents part

1997
Age 15  ♀ ♂ MC
Mom died

2000
Age 18 ½ ♀ ♂ Ds
Entered college

2003
Age 21  ♀ ♂ MC
Dad re-married

2006
Age 24 ♀ ♂ ASC
In love/wife to be

2012
Age 30 ♀ ♂ Ds
Married

Diana, his mom, died 8-31-1997 just after William turned 15. Saturn arced conjunct MC/♀ and appropriately describes his loss.

William 8:55 PM
RECTIFIED - Tebbs

Solar Arc Directions
Verifying Known Birth Time

Test
- Astrologers look for a consistent pattern where appropriate astrological indicators describe and align with actual life events.

All
- Start with Solar Arc Direction, 1° a year +/-
- Angles to Planets and Planets to Angles.
- Winter Sun moves faster, slower in Summer.

Times
- Generally, time adjustment will only be minutes + or -
- The Moon and planets will not change enough to be interpretively useful.
Patsy Cline
Female Chart
Sep 8 1932, Thu
11:15 pm EST +5:00
Winchester, Virginia
39°N11'08'' 078°W09'49''
Geocentric
Tropical
Whole Signs
True Node
Rating: AA

11:15 Birth Time may be Rounded
Close Aspects are Easier

Rectification is much easier if the chart has at least one close-aspect network that includes (☉☉) or (☉☉☉).

Country singer, Patsy Cline, has AA-rated birth data.

With basic “arcing” of the ANGLES for her plane crash death at age 32 ½---

11:15 PM Angles Don’t Work!

2. 23π ASC arcs to Mars/Pluto square Uranus at 32½.

3. Saturn arcs to MC

4. Moon/planets won’t change if time adjusted + or - minutes.

5. Are these aspects appropriate event descriptors?
**Pitfalls of Birth Time Accuracy**

- Variances of clocks running fast or slow.
- Care of mother and baby are a priority.
- Some states (AZ) do not observe DST.

- Some states (IL) required DST births recorded ST.
- Rounded-off birth times were common pre-WWII.
- Many countries don’t record birth time, China/Japan

- Good news for computer users, U.S. and World time variances have been incorporated into all major chart calculation programs.
From Verify to Rectify

Deriving Birth Time Varies Widely Based on:

- How much the client can narrow the time range
- The number of dramatic life events with specific dates, “event hooks”
- The number of natal planets in 1-2 degree major aspect, “aspect hooks”

Rectifying the Chart, the Astrologer Looks for:

- A consistent pattern where astrological indicators appropriately describe and align with life events.
At age 30, Joe Biden:

1. elected Senator 11/8/1972

2. wife and daughter killed and two sons injured in an auto accident 12/18/1972.

3. Nothing arcs to or from angles

8:30 AM Angles Don’t Work!

4. Biden’s Moon arcs to “Bendings” at the accident; that remains even if birth time is adjusted.
At age 30, Joe Biden:

2. wife and daughter killed and two sons injured in car accident 12/18/1972.

3. Moon still arcs to Uranus /Nodes, “Bendings”, at accident

4. Moon/planets won’t change if time adjusted + or - minutes.
At age 45, Joe Biden:

2. given a 60% chance of survival.

3. MC arcs square Pluto, Pluto arcs to MC, and Mercury quincunx Pluto.

4. AS arcs sextile Mercury—he survived.

5. Moon/planets won’t change if time adjusted + or - minutes.
At age 67, Joe Biden:
1. mom died 11/2009
2. MC arcs to 0° square Nodes
3. ASC arcs square Mars.

At age 66, Joe Biden:
1. Inaugurated USA Vice-President 1/20/2009
2. MC arcs conjunct Sun/Venus
3. Mercury arcs sextile his Sun/Venus.
4. Jupiter arcs conjunct Neptune trine Uranus
5. Moon/planets won’t change if time adjusted + or - minutes.
For Chinese births it is necessary to ask if the birth date is in the Solar or Lunar calendar.

It is very common for older generations to remember birthdates in the Chinese Lunar Calendar.

I thought this happens only with the older generation until I spoke to a young Chinese chap, and he too quoted me his birth date in the Chinese Lunar Calendar.

For Singapore and Malaysia, the birth times are recorded on the birth certificate.

It is easy to find ways to convert time, but the Lunar Calendar is usually one month later than the Western solar dates.

- Unfortunately, there is no consensus on how to rectify birth times.
Narrow the Birth Time Search

Suggestions for birth time record resources:

- Relatives and friends present at the birth
- A birth announcement sent
- The family Bible often has birth time listed
- Family correspondence at the time
- Local newspapers for the date
- Baptism records at the family’s church
- Baby book entries by the mother
- Saved hospital ID bracelets in baby books
- An official birth certificate
Data Controversy

MC/IC will often flip equally in 12-hours. However, ASC/DES often makes big changes.
**Paul McCartney:**
- 1964 Best period 1964 Five top-selling singles
- March 1969 Long and happy marriage-29 years
- 1970 "The Beatles" broke up
- 1970 Released first solo album, "McCartney"
- 1981 Arrested for marijuana possession
- 1997 TV special, "The Beatles Anthology“
- 11 March 1997 Knighted by Queen Elizabeth II
- 17 April 1998 death of wife to cancer
- March 1999 Inducted Rock & Roll Hall of Fame
- March 2001 Bought $4 million Hollywood house
- 11 June 2002 second Marriage
- 28 October 2003 daughter born by second wife
- 17 May 2006 Announced split from second wife
- 9 October 2011, third Marriage

Specialized Software Helps

- Software designed for rectification and research helps narrow the birth time range.

- Bernadette Brady and Graham Dawson’s *Jigsaw 2.2* program marketed by Astrolabe
- David Cochrane’s *Sirius 2.2* program marketed by Cosmic Patterns
- Alphee LaVoie’s *Time Tunnel* rectification program

- Kepler 8.0, Solar Fire 9 and WinStar 2.0 programs do not include a specific rectification search, however, they do include adequate features for easily searching and testing possible birth times.

Is DST not in Effect June ‘42?
For a Wider Time Search...

- Establish 1-2 degree natal “Aspect Hooks” between planets or nodes in the 1\textsuperscript{st}, 2\textsuperscript{nd} or 4\textsuperscript{th} harmonic. If the time range is more than 2-hours, do not include Moon.

- Begin testing with 6-8 major “Life Event Hooks” first with Solar Arc Directions arcing planets to “working angles” and “working angles” to planets to narrow the time range.

- Personal issues like health or relationships often involve the Ascendant and Descendant axis (1\textsuperscript{st} and 7\textsuperscript{th});

- Status, career and home issues often involve the Midheaven and Imum Coeli axis (10\textsuperscript{th} and 4\textsuperscript{th}).
What if Time is Unknown?

**Find**
- Use 0-Aries chart without the Angles, Moon or Houses look at: condition of the Sun, Planets and Nodes, change little in 24-hours.

**Close**
- Search for close 1-2 degree aspects or configurations that reveal major life issues.
- When one planet is activated, so are others.

**Aspects**
- The more planets involved in close network, the easier to align events.
- If time is known within 2-hours, include the Moon.
No birth time AND Sparse biography

Bill O’Reilly

Fired from Fox News on April 17, 2017, interest in Bill O’Reilly’s chart arose and Astro.com had it, but without birth time - an “X” rating. It’s an astrologer’s nightmare!

The test chart is set for Noon and a generic wheel with 0° Aries on the Ascendant is used.

If that weren’t problematic enough the biography is extremely sparse:

Marriage 1995
Begin "The O'Reilly Factor" 1996
Begin "The Radio Factor" 2002
Son born 8 September 2003
Law suit 14 October 2004 for sexual harassment; he countersued
Settled 28 October 2004 $10 million
Even without a birth time National Security Advisor, John Bolton, has a good “aspect hook” to start the search. Now we just need a list of 8-10 major life events.
• Public figures often have multiple birth times reported, known as “Dirty Data, or DD rating”.

• Hillary Clinton has 6 reported birth times spanning 19 hours: 1:30 AM; 2:18 AM; 8:02 AM, 9:36 AM, 8:02 PM; 9:36 PM -

• She said 8:00 o’clock, but didn’t say AM or PM

• The astrologer’s nightmare is a 24-hour search.
  • Good astrology software and a list of major life events that span most of the life is a must.

Hillary R. Clinton - Oct 26, 1947

Birth time is usually listed, but may not score highest

*PAIRED TIMES*
Jigsaw 2.2 gave birth times near 7:00 AM and 7:00 PM, so we suspect Hillary’s “8:00 o’clock” may be in Daylight Savings Time - an hour later than ST.

Most of the 20th century, Illinois required all births recorded in Standard Time - even if Daylight Savings Time was in effect.

Clock Changes in Chicago, Illinois, USA in 1947

- **Next change:**
  - **Start DST:** Sunday, April 27, 1947
  - **End DST:** Sunday, September 28, 1947

No Chicago DST changes occurred in 1947, as it was not in effect.
8:15 AM/PM, plus or minus a few minutes, is strong in Sirius and Jigsaw.
| Age 21: 10 June 1969 | Graduated Summa |
| Age 27: 11 October 1975 | Marriage |
| Age 31: 10 January 1979 | Ark. First lady |
| Age 32: 27 February 1980 | Birth of Child |
| Age 45: 20 January 1993 | USA First lady |
| Age 50: 9 September 1998 | Bill’s sex tryst |
| Age 53: 7 November 2000 | USA Senator |
| Age 61: 1 December 2008 | USA Sec. State |
| Age 63: 31 July 2010 | Chelsea’s Marriage |
| Age 64: 1 November 2011 | Mother’s Death |
| Age 69: 8 November 2016 | Lost Election |

**Notes:**
- Solar Eclipses 2° orb Activate Angles Best for 8:15 PM Time.
- The table includes dates, events, and degrees for various signs.
- The table is structured to show the alignment of events with astrological signs and degrees.
- The table is designed to help identify significant astrological alignments related to the events listed.
### Summary of Search Results for Hillary Clinton

Using Directions, Progressions, Declination & Transits for key events, & testing Angles with Solar Eclipses, 8:15 PM is best time.
